1 The relief, in a sentence

For estate and letting agents, AssetProof removes the dreaded documentation phase entirely and hands back polished, professional documents that enhance your authority — a shift from the grind of paperwork to results you're proud to put your name to.

2 Eliminating the dreaded phase

WHAT WE DO	WHAT IT MEANS FOR YOU
Outsource the observation	Trained documentation specialists handle the hours of meticulous observation, description and condition-checking.
Minimal effort	You spend only a few minutes on a simple phone walkthrough to film and photograph the property.
No overhead	Not another app to learn and no team to manage — you upload media and sign the finished documents.

3 Dispute neutralisation

STRENGTH	BENEFIT
Defensible evidence	Dated, photo-backed and signed — a record that stands up in a dispute or at transfer.
One signed-off page	Owners, renters and buyers on the same factual account, neutralising disputes before they start.
No opinion battles	You look more professional, relying on upfront dated evidence rather than subjective claims.

4 One walkthrough, every outcome

SCENARIO	WHAT YOU GET
Long-term let	Date-stamped condition reports and furnished inventories.
Short-term rental	Guest welcome packs, house manuals, and Airbnb/Booking listing copy.
Sale	Fixtures & contents schedules and an investor income prospectus.

5 Professional authority, without the effort

Every document is branded to you — making you look like the consummate professional on every contract you sign. The 'done for you' model means even the most talented agents (often the first to be bored by documentation) deliver a thoroughness that matches their expertise.

6 See it on one of your properties
